Week #	To Do	Owned by	Deadline	Status	Time estimate	Comments		Suggestions from class this week:
			all midnight	green done/red not	in hours			
Week 5:								upload photos also!
plan of attack/skeleton	Make spreadsheet	Mikaela	2/5/2014		1			sharing
	Fill out spreadsheet/choose deadlines	Mikaela	2/6/2014		0.5			maybe if they submit two, they concatenate?
	Code homepage	Calvin, Mikaela	2/6/2014		3			upon edit: auto cursor to the end.
	Set up Github	Calvin	2/4/2014		0.5			Dan Cosley: does cool things about memory
	Code skeleton links	Calvin	2/6/2014		1			
	Re-do Heuristic Evals	Peter	2/5/2014		2			more concise view:see months
	Summarize Heuristic Evals	Peter	2/6/2014		2			pop up/randomly show an old memory??
	Publish to Heroku	Calvin	2/6/2014		0.5			be able to make a summary
	Re-draw prototype, based upon heuristic feedback	Peter	2/5/2014		0.5			search function
	Test site from mobile device	Mikaela	2/6/2014		0.5			maybe tags? #farmer's market
	Browse app design sites for possible UI templates	All	2/7/2014		?			include in the description--the intent--it's personal, not
Week 6:	research possible database structures (ClearDB?)	Mikaela	2/11/2014		1			
basic functionality	fix the json bug	Calvin	2/13/2014		3			
	Research push notifications from web app	Peter	2/10/2014		1			
	Code settings screen UI	Peter	2/12/2014		1			
	Implement functionality for the "daily entry" page to push data to the	Calvin	2/13/2014		1			
	Research/implement drop-down to make previous entries expand on the "past entries" page	Peter	2/13/2014		3			
	Determine whether weekly summarization of entries is feasible/needed	Mikaela	2/10/2014		1			
	Research JQTouch/SQL	Calvin	2/11/2014		2			
	Implement push notifications	Peter/Mikaela	2/13/2014		2			
	Find a way to store users temporarily	Peter/Mikaela						
Week 7:	Make user questionnaire	Peter	2/16/2014		1			
ready for testing	Recruit three test subjects each	All	2/16/2014		2			
	Icon creation: "favorites" star, logo, checkboxes, etc.	Mikaela	2/18/2014		2			
	Pick appropriate fonts	Mikaela	2/17/2014		1			
	Implement user editing of entries on the memory-history screen	CAlvin	2/19/2014		3			
	Evaluate design for ease of use and make those changes	Mikaela	2/19/2014		1			
	Develop user test plan	Peter	2/16/2014		2			
	Run User tests	All	2/20/2014		?			
Week 8:	aggregate test data	Peter	2/24/2014					
user test results	Create a to-do list of changes with incorporated feedback	Peter	2/25/2014					
	Re-evaluate small design details: does the entire app flow smoothly?	Mikaela	2/27/2014					
	OPTIONAL: implement functionality that allows user to choose background and/or fonts?	Calvin	2/27/2014					
Week 9:	Organize collected data	Peter	3/4/2014					
refine /statistics	Do statistical analysis/number-crunching/chi-squared test	Mikaela	3/5/2014					
	Create graphs or other visual representations of data	Calvin	3/6/2014					

Week 10:							
presentation							
	Compile summary of findings	Mikaela	3/10/2014				
	Brainstorm possible problems/caveats and how to respond to them	Peter	3/11/2014				
	Brainstorm what features of prototype&design process we want to present	Peter	3/9/2014				
	1-minute madness slide	Mikaela	3/12/2014				
	Booth poster	Calvin	3/13/2014
